H.□ □ The Origin of Democracy

1. There are many political regimes characterized by different features. But all of them can be divided into two groups: democratic and undemocratic systems. Among the second ones are totalitarian regime or absolute monarchy where there is very strong and hard power of the ruler.

2. Democracy is a form of government in which the supreme power is held completely by the people under a free electoral system.

3. In the dictionary definition, democracy "is government by the people in which the supreme power is vested in the people and exercised directly by them or by their elected agents under a free electoral system."

4. Democracy has its history in [ancient Greece](#) . However, other cultures have contributed to the evolution of democracy such as the American Indians, [Ancient Rome](#) , Europe, and North and South America.

5. Democracies are divided into two basic categories, direct and representative.

6. In a direct democracy, all citizens, can participate in making public decisions directly. Such a system is practical only for a society with small numbers of people. Ancient Athens, the world's first democracy practiced its direct form with 6,000 persons – the maximum number that can physically gather in one place and practice direct democracy.

7. Today, the most common form of democracy is representative democracy, in which citizens elect officials to make political decisions, formulate laws, and administer programs for the public good.
