«Mother's»

To any, who lives on green our Earth,
To love, who can think and to breath,
On our sin blue planet as sky
We don't know the closest ward as mum to cry!

Our mothers mummies dear,
The hearts and lives will give without words,
There is no one who will be near,
It's not important they've no nimbuses on heads.

We will remember our mummy an angel, full of light,
And is there is the biggest problem have,
Our dear mothers always strongly fight
Without words they understand and save.
There is no one, who honey and loved as mommy,
She is your guardian - angel for during all your life,
Like clever dolphin in all your troubles dive,
We always in a hurry for your advice,
And all you've said - it's nice!

In this the day of joy -the Mommy's holiday,
I want that all your plans come true,
And all the troubles will you through,
Great happy, joy and lovely moments,
In whole, only bright and good events!
