Mother.

Mother is the first word for all babies in the world.

It is pronounced as a code by all people of the world
So gentle with great hope in the difficulties to support.

Mother is a magic word for all creatures in the world.

Many animals, fish and birds can survive in the world

Understanding the magic word

Mother is a sacred word for all children in the world.

We are glad to see her eyes, thank her for valuable advice,
For her prayers so wise which she always sends to us.

Mother is the dearest word in all families in the world.

Best wishes, warm words she deserves.

Our love, care and sincerity are her great awards.

We wish her health, wealth and happiness

Happy Mother's Day!

Good job! The words are very simple, but your poem is touching
