To my Mum

When I wake up in the morning  
I feel the touch of warm lips.  
I am from the night dreams returning  
With my mother's sweetest kiss.

I brush my teeth and then take a shower,  
I'm led to the kitchen by delicious smell.  
My mother's breakfast has a power,  
Coffee and fresh buns – all is done very well!

My mum has always early to rise:  
We are so naughty and we make tricks.  
But she takes care of us so nice-  
Me, the cats and the guinea pig!

A children's doctor my mother is  
And she is a really good specialist!  
She treats their necks and bellies  
With care and love to babies.

Mum, I try not to hurt you really  
And you know I love you dearly!  
You always help me when I fall  
You always support me when I call.

And today on the Mother's Day  
I just kiss you and want to say,  
You are my mother,  
I would have no other! [http://tea4er.ru/images/fbfiles/files/Vetrova\\_DE\\_Mothers\\_Day.zip](http://tea4er.ru/images/fbfiles/files/Vetrova_DE_Mothers_Day.zip)
