Mother

Mother is kind, generous and wise.

She always helps you when you are not nice.

She cheers you up when you feel blue

Because she is your mother, she loves you.

Sometimes she may be as busy as a bee

With cleaning the house and making tea,

With washing up and watering the flowers.

Help her! She can't wait for hours.

For a child Mother is a fairy

Who turns sad things into merry.

For a teenager she's a real friend

And can give advice in the end.

For a grown-up she's a child

Take care of her and be mild!

Your poem is easy to learn . Teachers need such poems , I think children will recite it with pleasure. I wish you a success.
