My mother

When I was a little girl

I know my mother very well

She was so strict, exacting

But most of all kind and caring.

As far as I remember

My childhood was very happy

It's owing to my mother

We all were very friendly!

My mother is industrious,

She works with clear conscience

She is nice and sociable

Of course she is responsible!

Those children whose parents

Take proper care of them

Are very grateful Oh! to them

Either now or afterwards

When they become grown-ups.

So I am a mother now

I understand her very well

In all my life I want

To be all like my mum!
