Mother

One of the most important words

There is one word in our minds,
That has the meanings of all the kinds.
That helps, supports us and reminds
Ways out of difficulties it finds.

Born with this word on our lips,
We get "how-to-live" tips.
And follow them during "crazy-life" leaps
As well as other obstacles of "fortune sips".

The most precious of what we possess,
The most beautiful of what we obsess.
This word passes an important process,
Nobody dares to call it "nonsense".

"Mother" – that is the lovely notion,
It fills our hearts with the greatest emotions.
It consists of so many vital proportions
United in one spiritual-physical lotion.

Mother knows what to say to raise mood,
Mother knows what is bad and what is good.
Mother lives in our soul neighborhood
"Mother" for everyone is like water and food.

Dear mothers, Be happy, healthy, beloved.
You deserve to love and to be loved.
It is impossible your importance to measure,
You are our precious treasure.

"Mother`s day" lasts in our hearts forever,
Whatever we do, exist we wherever.
Mothers, remember, we admire you, we adore,
With every second we love you more and more.

I agree with you that the word MOTHER "fills our hearts with the greatest emotions". You've created the poem with magic words.
