My Mom.

For many years already
I'm a mother myself
But my Mom is always ready
To give me a hand herself

I have two kids
And no spare time
My Mom understands
And so do I

I work very hard
To educate my daughter and son

Instead of quite retirement
She plays and dances with them
She looks younger that moment
I love to watch them

And when I'm a Granny
I bet I'll do the same!!!

I wish her be healthy
And wealthy of course
And never feel sorry
For the years that passed

I wish her happiness
And all the joy of life
I think its foolishness
Not to respect and love

I can't imagine life without her indeed!

Well done! I agree with you that we should respect and love our mothers. Let it be!

Good luck in the contest!
