“Mother”

“What does it mean for you...?”

What does it mean for you

This little...magic word “Mother”?

Mother is who gave birth to you.

You always rely on your mother.

Think about it...and at the beginning

I'd like to say, that it has a lot of the meaning.

She is the best friend, she care for you.

She's always on your side and she will support you

As say Honore de Balzac: “The mother's heart is the deep,

The deep in which there is always forgiveness”.

It isn't only the words of the kindness.

We can talk forever about our mother

But the main:

“ Love, regard and appreciate your mother!”
