The Victory Day

The awful long war is over

When days were dangerous and rotten.

But memory is forever

And nobody is not forgotten.

Today is the Day of Victory!

It is so exciting time!

We honour our Russian history,

Flowers to veterans are so fine!

This day is full of tears

And all people know it.

And joy is there and here

The Victory Day is our favourite.

We remember battles and heroes

And we love our Motherland!

Our people are brave and generous,

Against all wars is my hand.

I think about the Victory Day

That is marked by my Motherland.

We are so happy to love May

And I and You, my dear friend!
