The war started suddenly.
The happiness was lost.
It happened not occasionally,
It was expensive cost.

During these times
It had being never easy.
The bread was very valuable,
Everybody was such as crazy.

But it was a war,
the new deaths appeared .
Each family know that
the death had no pity.

The children were painful
in each Russian city.
They had the dystrophy,
It was like the catastrophe.

The bodies of people
were left on the road.
Only after some days
they were buried.

The life was like the chaos,

which destroyed each house.
But people believed in 45...
The Russian spirit has the life!!!
