

Фоминых Н.Ю. Placement on-line Test

Послан Фоминых Наталия Юрьевна - 04.01.2012 22:23

Dear colleagues!

Every New Year (School or University) we face the same problem: how to place our students according to their level of language.

Hope the Placement on-line Test/url] will help you to cope with it.

The Placement Test is designed to be used before students start new English course. It checks students' knowledge of the key language areas taught in each level (A1 to C1) according to Common European Framework. It is intended to indicate the starting point of language that is most appropriate for the student.

In the Placement Test, there are 16 questions for the Starter level and 20 questions for each of the other five levels (Elementary to Advanced). Answer choices are randomized that almost excepts peeping and prompting.

You can use this Placement Test on its own or in conjunction with the Oral Placement Test if you have the time and facilities to interview each student.

Sorry, but unfortunately I couldn't make a link to the test in a previous comment (I don't know why).

The placement on-line Test and the results of it are here: http://shvidko172.narod2.ru/placement_test/
