ESENIN IS OUR RUSSIAN TREASURE!

As if the sun his life sparks brightly,
With its sunshine warms us deeply.
And beauty of the world discovered
As a maple which should forever be.
His "Birch" with nickname Ariston
Appeared in "Mirok".
And everybody recognized
Pushkin's follower in him.
His dreams were accessible.
But the time was hard.
Not everything he managed to achieve.
But he was the son of his century:
In hardest days he didn't complain,
Because he was a strong MAN!
Esenin's birch and maple
Will remind us about the past.
It is impossible his importance to measure,
Because Esenin is our Russian TREASURE!

It is impossible his importance to measure,
Because Esenin is our Russian TREASURE!
You really realize Esenin's role in the development of Russian Literature!
Be successful.
