Our Love and Proud
Yesenin is our Russian heart,
Yesenin is our Russian soul.
His poems are our start
To love our Russian nature and home.
His poems are beautiful songs
About a small village and a countryside,
And his love to Russia is so long,
So deep and so full of light.
He teaches us to love and don't forget
Our home and our native place,
His feelings are a life's respect
And his dream is about happy days.
Yesenin is always in our heart,
He is our great love and proud,
His poems are important as our life part,
And we can say it without a doubt!
