Sergei Esenin

The peasant's family gave the birth to a talented child
His life wasn't too easy and very kind.
He was grown up by his grandpa five years
Without dear to heart his loving Mum's eyes.

He finished four classes.
Then church-teachers' school
And went to his father to Moscow
Where he became famous and cool!

The first lines of poems written by him
Appeared in Moscow's magazine
After making friends with well-known team.
Gorodetskii and Kluev especially Block
Helped him to publish the first poem's book.

Sergei liked to travel around the world.
He visited Canada, Italy, France
Sergei was in Georgia not only once.
Azerbaijan liked he and worked there hard
He wrote the poems there so brilliant and very smart!

He liked Motherland, the nature, the world
But it's a great pity he left our Earth!
The Planet is crying. The people are sad.
He died very young and we can not change that!

I want him to live!
I wish him not die!
And may be one day in the image of golden bird
he will be able to fly!

Really a biography in verses, but try to be more attentive to punctuation.

Best wishes.
